Index of Subjects

Volume 8, 1992

Alpha-fetoprotein
  elevated maternal levels, prenatal ultrasound findings, 122
  maternal levels, and renal agenesis (case report), 320
Aneuploidy, diagnostic implication in prenatal polyhydramnios,
Aneurysm
  pseudo-, carotid artery, in Behçet's disease (case report), 21
Attenuation (physics refresher), 100, 211, 331

Behçet's disease, spontaneous pseudoaneurysm of carotid artery in (case report), 21
Book reviews, 217

Cardiac performance, quantification, 127
Carotid artery, pseudoaneurysm in patient with Behçet's disease (case report), 21
Cholelithiasis, optimum maneuvers to improve sonographic assessment for biliary lithotripsy, 64
Chromosome anomalies, diagnostic implication in prenatal polyhydramnios, 79
Contrast studies
  two-dimensional echocardiography, clinical information not available with color flow imagery, 2
Cyst
  allantoic, prenatal diagnosis (case report), 28
  Gartner's duct, described by endovaginal ultrasound (case report), 323
  ovarian, fetal, and subsequent torsion, 329
  urachal, presenting as complex mass (case report)

Diabetes mellitus, maternal, sonographic evaluation of fetal anomalies associated with, 15
Doppler imaging, color
  endovaginal, to document fetal heart motion in 5-week ectopic gestation (case report), 266
  imaging parameters and image quality, 180
  transvaginal evaluation of placental circulation, 131
  vein of Galen detection in utero (case report), 143

Echocardiography, contrast two-dimensional, clinical information not available with color flow imagery, 2
Employment, temporary, is it right for you?, 206
Endocarditis, infective, role of echocardiography, 239
Endovaginal ultrasound
  fetal heart motion in 5-week ectopic gestation (case report), 266
  Gartner's duct cyst, described by endovaginal ultrasound (case report), 323
  preoperative diagnosis of unruptured interstitial pregnancy (case report), 203

Fetus-sonographer bonding, 269. *See also Prenatal ultrasound*
Fourier analysis, simplified explanation, 297

Galen, vein of, malformation, color flow detection in utero (case report), 143
Gartner's duct cyst, described by endovaginal ultrasound (case report), 323

Hemorrhage, intracranial, due to thrombocytopenia, alloimmune, detection of, 249
Holoprosencephaly, sonographic evaluation, 256
Hydronephrosis, pregnancy-induced, renal resistive indices in, 68

Imaging parameters and image quality, color Doppler, 180
Infection control standards, in diagnostic imaging, 86

Justification, and presenting ideas to management, 146

Kidney
  agenesis, and low maternal serum alpha-fetoprotein (case report), 320
  polycystic kidney disease, review of, 232
  resistive indices in pregnancy-induced hydronephrosis, 68

Legal liability and sonography, 93
Lithotripsy, biliary, maneuvers to improve sonographic assessment, 64

Magnetic resonance imaging, appearance of impacted, infected retained vaginal tampon with vaginal duplication (case report), 325

Pelvic mass, ectopic spleen simulating (case report), 24
Perineum. *See Transperineal ultrasound*
Placental circulation, transvaginal Doppler evaluation, 131
Politics, job (issues), 213
Polycystic kidney disease, review of, 232
Polyhydramnios, ultrasonographic identification, 79
Pregnancy
  acardiac twin presenting as vanishing twin (case report), 137
  ectopic gestation, endovaginal color Doppler documenting heart motion (case study), 266
  interstitial, unruptured, preoperative endovaginal diagnosis (case report), 203
  preoperative diagnosis by transvaginal ultrasound (case report), 89
Prenatal sonography
  allantoic cyst, diagnosis (case report), 28
  fetal anomalies associated with maternal diabetes mellitus, 15
  heart motion in 5-week ectopic gestation, endovaginal color Doppler documentation (case report), 266
  hemolysis (Rh disease), fetal isoimmune, sonographic management, 72
  imaging services (issues), 333
  ovarian cyst and subsequent torsion, 329
  polyhydramnios, diagnostic implications, 79
  trisomy 13, renal findings, 262
  trisomy 22, antenatal detection (case report), 199
  vein of Galen, malformation, color flow detection in utero (case report), 143
Publication, challenged to write? (issues), 149

RH disease, fetal isoimmune, sonographic management, 72

Seminoma, recurrent, sonographic and pathologic correlation (case report), 140
Scanning technique
three-phase ultrasound for deep venous thrombosis, 33
Spine, intraoperative sonography, 310
Spleen, ectopic, simulating pelvic mass (case report), 25
Statistics, deciding the right technique, 193

Thrombocytopenia, alloimmune, detecting intracranial hemorrhage due to, 249
Transperineal ultrasound, fundamentals, 188
Transvaginal ultrasound
placental circulation evaluation, 131
preoperative diagnosis of abdominal pregnancy (case report), 89
survey of techniques (issues), 97
Trisomy 13, prenatal renal findings (case study), 262
Trisomy 22
antenatal detection (case report), 199
antenatal sonographic findings, 316
Twins, acardiac presenting as vanishing twin (case report), 137

Vagina. *See also Endovaginal ultrasound; Transvaginal ultrasound*
impacted, infected retained tampon with vaginal duplication, ultrasound and magnetic resonance imaging appearance (case report), 325
Vein of Galen, malformation, color flow detection in utero (case report), 143
Venous thrombosis, three-phase ultrasound scanning technique, 33

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION (Act of August 12, 1970: Section 3685. Title 39 United States Code) Date of Filing—October 1, 1992, Title of Publication—JOURNAL OF DIAGNOSTIC MEDICAL SONOGRAPHY; Frequency of Issue—Bi-monthly; Annual Subscription Price—$62.00; Location of Known Office of Publication—100 Insurance Way, Suite 114, Hagerstown, MD 21740; Location of Headquarters or General Business Offices of the Publisher—227 East Washington Square, Philadelphia, PA 19106; Publisher—Society of Diagnostic Medical Sonographers, 12770 Coit Road, Suite 508, Dallas, TX 75251; Editor—Jean Lea Spitz, MPH, RDMS, University of Oklahoma, Oklahoma City, Oklahoma; Managing Editor—Linda Krumpholz, 227 East Washington Square, Philadelphia, PA 19106; Owner—Society of Diagnostic Medical Sonographers, 12770 Coit Road, Suite 508, Dallas, TX 75251; Known Bondholders, Mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities—none. A. Total no. copies printed (*net press run*), average 12,750, actual 14,200; B. Paid circulation 1. Sales through dealers and carriers, street vendors and counter sales, average none, actual none; 2. Mail subscriptions, average 10,688, actual 11,441; C. Total paid circulation, average 10,688, actual 11,441; D. Free distribution by mail, carrier or other means. Samples, complimentary, and other free copies, average 431, actual 397; E. Total distribution (*sum of C and D*), average 11,119, actual 11,838; E. Copies not distributed 1. Office use, leftover, unaccounted, spoiled after printing, average 1,631, actual 2,362. Returns from news agents, none; G. Total (*sum of E & F—should equal net press run shown in A*), average 12,758, actual 14,200. I certify that the statements made by me above are correct and complete. J. Lippincott, *Vice President*.
